DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 23, 2007 has been entered. Claim objections and rejections are withdrawn in light of the amendment

REASONS FOR ALLOWANCE

Claims 2-7, 11-13 and 18-26 are allowed. The following is an Examiner's statement of reasons for allowance:

Independent claims 5-7, 11-13 and 18-20 of the present application detail a method of block puncturing for turbo code based incremental redundancy with coding data into systematic and parity bits. Particular details, as shown in each of the claims, are not taught in the prior arts of record. For example, the particular selection process of the coding rate, which is dependent on the symbol memory is not taught or fairly suggest, without improper hindsight, in the prior art. Therefore, claims are allowable over the prior arts of record.

Dependent claims 2-4 and 21-26 depend from allowable independent claims and therefore are allowed as well.
